Creating a DocuSign Demo Account allows you to practice using DocuSign without causing any long-term effects in your production environment. A demo account gives you full functionality - including the ability to create templates and send envelopes.

*Note that any Envelopes sent from a Demo Account are for testing purposes only.*

5 Steps (and 5 minutes) to Create Your Demo Account

1. Click [here](#) to access the DocuSign Demo Account creation screen

2. Enter in the required information and select Get Started.

3. Open the activation email that was sent to you. Select Activate, choose a password, and select Activate one more time.

4. You’re all set! You can now log into your Demo Account.

Permission Level

This account is provisioned with Administrator-level rights. This gives you the ability to practice using DocuSign to its full extent.
